Summary

Aspiring **AI Engineer** seeking an **Intern/Fresher** position to build AI-powered products, combining full-stack development with hands-on experience in LLM integration, fine-tuning, and recommendation systems. With all required coursework completed, I am available to work **full-time**.

Experience

AIPOWER — Intern Developer **08/2026 – 10/2026**

Project: Nam Thiên Long — Demand Planning System

- Developed and refined demand-planning interfaces in **React** and **TypeScript**, including Seasonal, Scenario Forecast, Consensus Forecast, and Adjustment modules.
- Implemented Scenario Forecast overlays across Dashboard, Consensus Forecast, and Adjustment, with changed-value highlighting and monthly adjustment history for audit purposes.
- Implemented and tested workflows for forecast-allocation audit logs, baseline comparison, distributor inventory/import, and Sell-in/Sell-out validation rules.

Projects

Personal Project: Travel Booking and Smart Tour Recommendation Platform Website | GitHub

- Built a server-rendered travel booking platform using **Node.js, Express.js, PUG, MongoDB, and Mongoose**, following the **MVC** architecture.
- Developed tour search, cart, booking, review, and admin features with **JWT**-based authentication, role-based access control, and VNPay/ZaloPay payment integrations.
- Developed a **hybrid recommendation** engine combining **content-based filtering** and **collaborative filtering** with ALS matrix factorization, using TensorFlow.js to re-rank personalized tour results.

Personal Project: AI Copywriting Platform with Fine-Tuning and Plagiarism Detection Website | GitHub

- Built a full-stack AI copywriting platform using **Next.js, TypeScript, Node.js, Express.js, MongoDB, and Mongoose**, with the frontend consuming **REST APIs**.
- Integrated Gemini 2.5 Flash, Llama 3.3 70B, and GPT-4 to generate customizable marketing copy.
- Developed dataset preparation and model fine-tuning workflows using Google Cloud Vertex AI.
- Developed Vietnamese–English plagiarism detection using n-gram matching, cosine similarity on embeddings, **SerpApi** source discovery, and **Common Crawl** comparison.

Education

2023–2027 **University of Information Technology - UIT (VNUHCM)** **GPA: 3.3/4.0**
Bachelor's in Computer Networks and Data Communications

Awards & Scholarships

Academic Merit Scholarship **Awarded in 2 of 6 semesters**
Awarded for strong academic performance.

Certifications

2026–2028 **TOEIC Listening & Reading: 915/990** View (Listening: 490, Reading: 425)

Skills

Frontend	React, Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS
Backend	Node.js, Express.js, MongoDB
Tools	Git, GitHub
